About American Chemical Society (ACS)

- **The world's largest and most influential scientific society**
 - Founded 1876
 - Not-for-profit, chartered by U.S. Congress
 - ACS vision is to improve people's lives through the transforming power of chemistry

MORE THAN 150K MEMBERS

IN 140+ COUNTRIES

SISTER DIVISIONS

ACS Publications is home to the world's **most trusted, most cited, and most read**: journals, ebooks, and educational materials in every area of chemistry and its many related fields.

- Articles published with ACS average the most citations in chemistry according to 2023 Clarivate Journal Citation Reports™
- More than 305 million journal articles were accessed in 2023
- More than 320,000 authors published in 2023

A Diverse Portfolio of Journals

In addition to every area of chemistry, ACS Publications journals also cover important discoveries in:

- Agriculture, food, and the environment
- Biotechnology and pharmaceuticals
- Education and safety
- Electronics
- Energy and transportation
- Healthcare
- Materials science and engineering

ACS Publications journals have high Journal Impact Factors™

2023 highlights include:

- *The Journal of the American Chemical Society (JACS)*, ACS' flagship journal, garnered 580,144 total citations and a Journal Impact Factor™ of 15.00.
- *Chemical Reviews* remains the highest-impact journal in the Chemistry, Multidisciplinary category, with a Journal Impact Factor™ of 62.10.
- *ACS Central Science*, ACS' first fully Open Access journal, achieved a Journal Impact Factor™ of 18.20.
- *Accounts of Chemical Research* achieved a Journal Impact Factor™ of 18.30.

ACS Commitment to Open Science

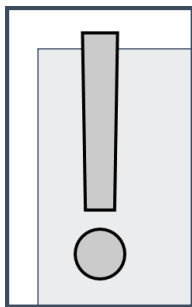

ACS Supports Open Science

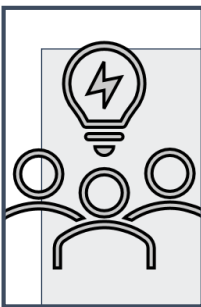

- 16 fully open access journals covering every area of chemistry
- Authors can publish open access in all 85+ ACS journals
- ACS Journal Finder tool helps researchers ensure funder OA requirement compliance
- Other ACS initiatives that support open science include ACS Research Data Center, ChemRxiv, SciMeetings, and Text and Data Mining

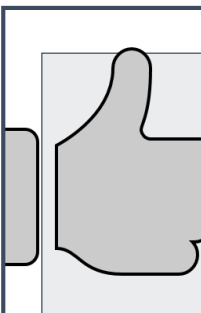

Author Affiliation – a Big Challenge

Initially only 14% of articles were affiliated with an institution

ACS undertook 1½-year project working with Scholar One to improve menu selection functionality

Proven Success! Article affiliation with an institution increased to over 95%

Resulting improvements benefit all Scholar One users

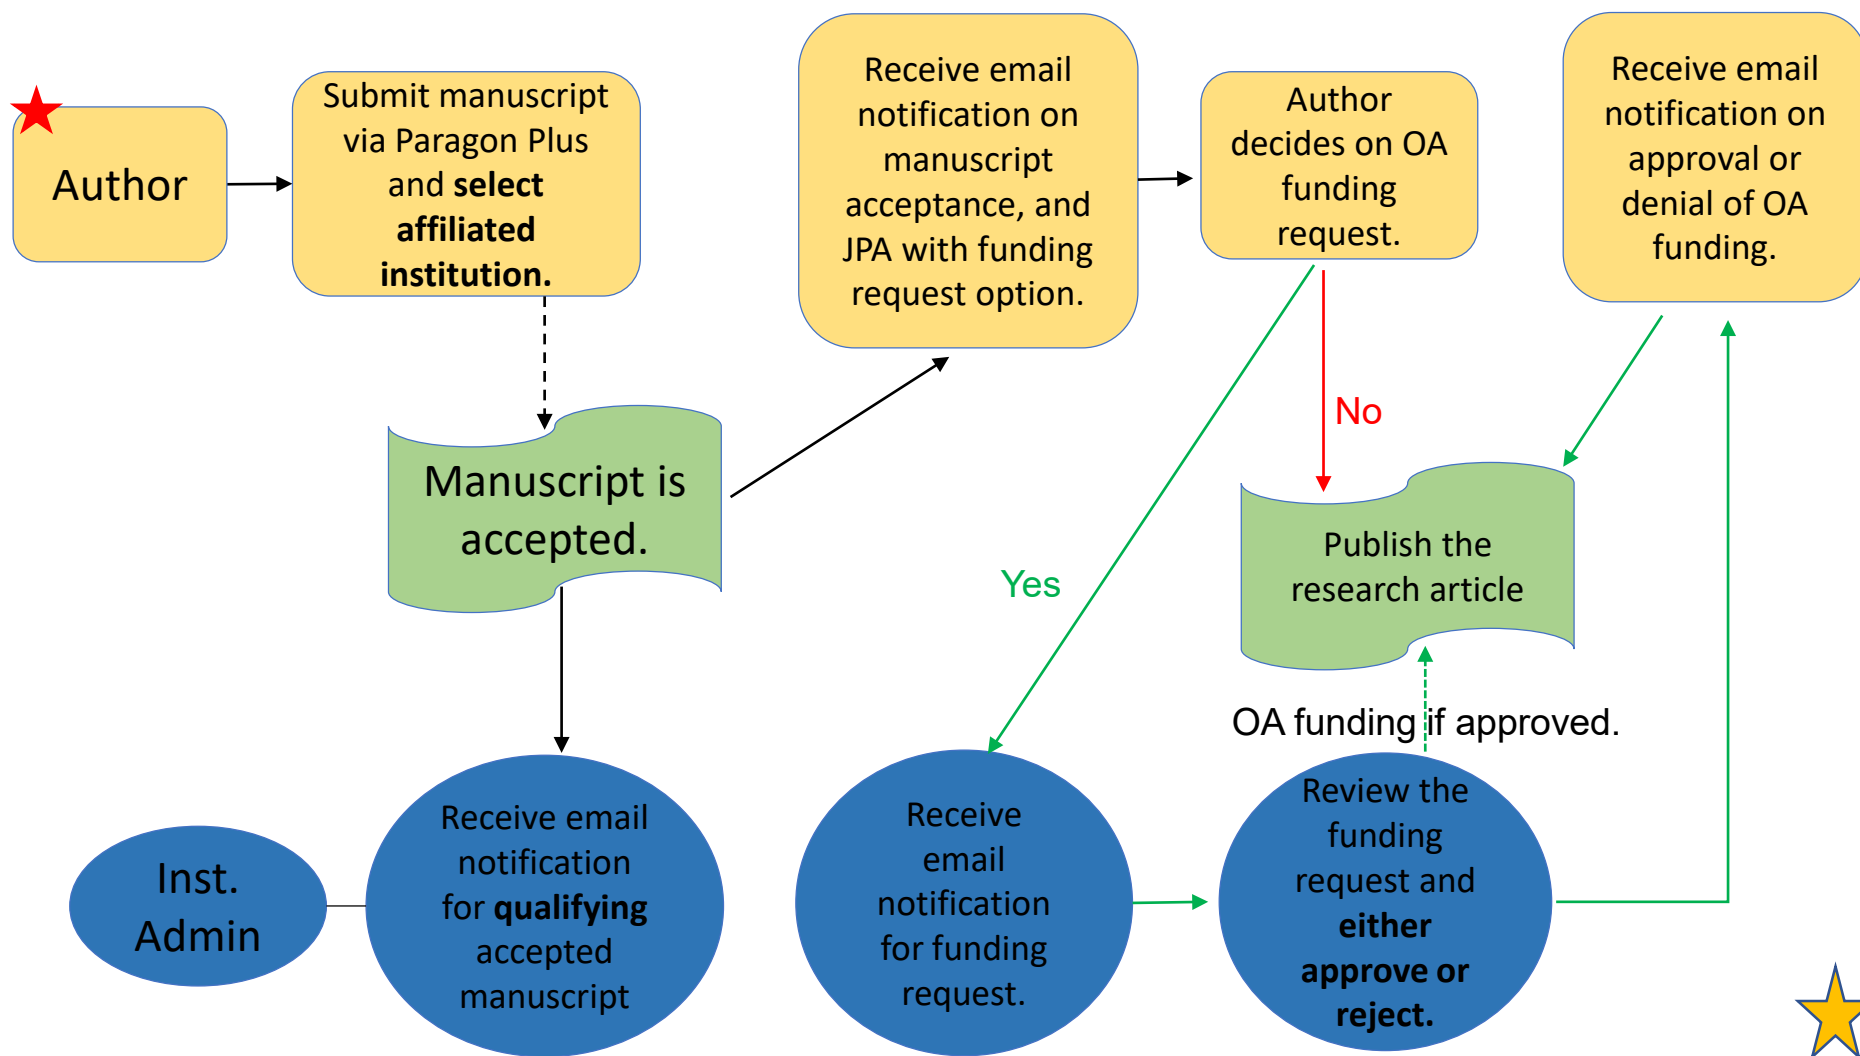

Enables the author to correctly identify their institution

Overview of ACS Publishing Process

- Step 1: Stay Informed
 - Keeping up with the latest findings from your research community is essential to future publishing success.
- Step 2: Prepare Your Manuscript
 - Putting together a compelling new story with your research. With over 60 ACS journals to choose from, you are sure to find a good outlet for your research.
- Step 3: Submit Your Manuscript ✓
 - Now it's time to submit – 'ACS Paragon Plus'.
- Step 4: Peer Review
 - Your manuscript will be thoroughly reviewed by at least three of your peers with the goal of validating and improving the content prior to publication.
- Step 5: Publish ✓
 - Congratulations, you've been accepted for publication!
- Step 6: Share
 - When authors take action to share their research with the global scientific community, they help maximize its impact.
