

如何用 PDA 手機(或智慧型手機)閱讀館藏電子書 操作範例

由於手機介面小，若直接連結至圖書館網站查找電子書可能會較費力，建議可先以電腦下載電子書後，再傳送至手機。以下就 HTC Touch2 手機示範，簡介如何透過 PDA 手機(或智慧型手機)閱讀 Springer eBook Collection 施普林格電子書。

1. 圖書館首頁→[電子資源—電子書]→資料庫搜尋：輸入關鍵字如：Springer eBook→點選 [Springer eBook Collection (施普林格電子書資料庫)] →輸入個人帳號、密碼→進入資料庫查找圖書→下載電子書

The screenshot shows the SpringerLink website interface. On the left, there is a sidebar with the SpringerLink logo and a list of consortiums. The main content area displays the book details for '100% Evil' by Princeton Archt.Press. The details include the DOI (10.1007/1-56898-629-7), ISBN (978-1-56898-526-8), and subject collection (Architecture / Design and Graphic Design). Below the details, there is a table of contents with three sections: 'Front Matter' (1-7), 'Part 1' (8-171), and 'Back Matter' (172-172). The 'Part 1' section is expanded to show the book title '100% Evil' with its DOI and a PDF icon. On the right side, there are search options and a search bar.

2. 下載電子書檔案之後，傳輸至手機中的方式有二種：

- (1) 直接將電子書檔案傳輸至手機的記憶卡（透過記憶卡讀卡機）。
- (2) 讀者於個人電腦安裝同步軟體後，利用傳輸線傳輸檔案至手機。

The screenshot shows a Windows Explorer window with the address bar set to '網址: \\儲存卡EBOOK'. The main pane displays four files: 'ebook.pdf', 'ebook.TXT', 'ebook.html', and 'ebook.TIF'. A red box highlights these files. To the right, there is a window titled 'Microsoft ActiveSync' showing the connection to 'HTC_Touch2'. The status is '已連線' and '已同步'. A red box highlights the ActiveSync window. A callout box with a pink background contains the text: '傳輸至手機的電子書檔案可支援PDF、TXT、HTML格式 TIF格式需視手機規格是否支援'.

3. 打開手機的檔案總管，找到電子書檔案的存放位置，即可開啟該電子書檔案瀏覽與閱讀。
